

HDD Land Company

License Request

Customer training guide — send a payment receipt and receive your license

Audience: Forum customers · English

This guide explains how customers use the **License Request** menu on the HDD Land forum to submit a payment receipt, track the request in Message Center, and receive the returned license file.

Official portal: <https://forum.hdd-land.com/> · Desk: [/vbdlmanager/sediv_license_request.php](#)

1. What this service does

License Request is for customers who have paid for a SeDiv license and need the license file delivered back into their forum account. You upload a clear payment receipt. HDD Land opens a private Message Center ticket, emails the receipt from info@hdd-land.com to the activator inbox sedivlic@list.ru, and later posts the returned **.txt** license into the same ticket.

- You must be signed in to the HDD Land forum.
- Accepted receipt files: **jpg, jpeg, png, webp, gif, pdf** (max 8 MB).
- Each request gets a unique tracking token: **VBDL-REQ-XXXXXXXXXXXX**.
- Email subject format: **License Request [VBDL-REQ-...]**.
- After approval, an admin can add you to **VIP SeDiv** so you can use Active License SeDiv.

2. Open the License Request desk

Step 1 — Sign in

Go to <https://forum.hdd-land.com/> and sign in with your customer account.

Step 2 — Open Message Center

Open **Message Center** from the forum navigation. In the license menus, choose **License Request** (or open the desk URL directly).

MESSAGE CENTER · LICENSE REQUEST

License Request

Upload your payment receipt. A Message Center ticket opens and the receipt is emailed to the license inbox. When the license comes back as a .txt file, it is posted into the same ticket and marked approved. An admin can then add you to VIP SeDiv so you can use Active License SeDiv.

Waiting for license .txt reply...

Figure 1. HDD Land Company — License Request desk (customer view)

3. Send your payment receipt

On the desk you will see your username, email, destination address, and subject. These fields are locked for accuracy — do not try to change the recipient.

- **To:** sedivlic@list.ru
- **Subject:** License Request (system adds your token automatically)
- **From / Reply-To:** info@hdd-land.com (handled by the server)

Step 3 — Attach the receipt

Click the file field and select a clear photo or PDF of your payment receipt. Make sure the payer name, amount, date, and reference are readable.

Step 4 — Optional note

Add a short note if needed (order number, product name, or payment method). Keep it factual — this note is included in the email body.

Step 5 — Press Send request

Click **Send request**. The system will:

- Create a Message Center ticket titled **License Request - VBDL-REQ-...**
- Attach your receipt to that ticket
- Email the receipt to sedivlic@list.ru with your unique token
- Show a success message and a link to open the ticket

4. Track status and receive the license

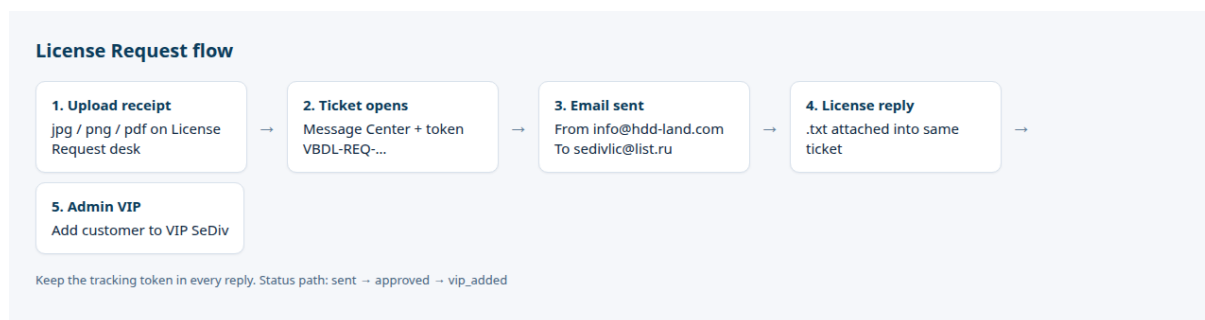

Figure 2. End-to-end License Request process

Status meanings

- **sent** — receipt emailed; waiting for activator reply
- **approved** — license .txt received and attached to your ticket
- **rejected** — activator replied with text only (instructions or problem); read the ticket
- **vip_added** — admin added you to VIP SeDiv; you may use Active License SeDiv

Step 6 — Open Message Center

Open the ticket from the success link or from **Your requests** on the desk. When the license arrives, you will see an approval note and a downloadable .txt attachment in the same conversation.

5. After approval — VIP SeDiv

Approved means the license file is in your ticket. An HDD Land administrator still needs to add your account to the **VIP SeDiv** group. After that, your status becomes **vip_added** and you can use the **Active License SeDiv** menu to activate product licenses (separate guide).

6. Important rules for accurate matching

Many license emails may be sent on the same day. Matching relies on your unique token.

- Never remove or edit the **VBDL-REQ-...** token from ticket titles or forwarded mail.
- If you contact support about a request, always quote the full token.
- Do not upload the same receipt twice unless staff asks you to create a new request.
- If status is **rejected**, read the activator message in the ticket before sending again.

Need help? Contact HDD Land support through Message Center or info@hdd-land.com and include your VBDL-REQ token.

7. Quick checklist

- Signed in to forum.hdd-land.com
- Opened License Request desk
- Uploaded a clear receipt (jpg/png/pdf)
- Pressed Send request and saved the VBDL-REQ token
- Opened the Message Center ticket
- Downloaded license.txt when status = approved
- Waited for admin VIP add before using Active License SeDiv
